

Json::OurReader::decodeNumber

```
graph LR; A[Json::OurReader::decodeNumber] --> B[Json::OurReader::current Value]
```

A diagram showing a function call. On the left, a gray rectangular box contains the text 'Json::OurReader::decodeNumber'. A dark blue arrow points from the right side of this box to the left side of a white rectangular box on the right. The white box contains the text 'Json::OurReader::current Value'.

Json::OurReader::current
Value
