

/home/mel/projects  
/Misc/Minecraft Server  
Service/src/serverOutput.cpp

```
graph TD; A["/home/mel/projects  
/Misc/Minecraft Server  
Service/src/serverOutput.cpp"] --> B["serverOutput.h"]; B --> C["listener.h"]; B --> D["mutex"]; B --> E["vector"]; C --> F["sstream"];
```

The diagram illustrates the dependencies of the source file `serverOutput.cpp`. It starts with the source file at the top, which includes `serverOutput.h`. This header file then includes `listener.h`, `mutex`, and `vector`. Finally, `listener.h` includes `sstream`.

serverOutput.h

listener.h

mutex

vector
